To whomsoever concerned,

Request Donations for the Hospitals

Reference: CEBH/PL/2022/drg/con dated 21-04-2022

DGH/DS/01/2021 dated 20-05-2022

From National Hospital Kandy dated 02-05-2022

As you are aware in this critical period, there is a drug shortage in Sri Lanka. This shortage is highly faced by government hospitals where most poor people get treatments. In this letter, I would like to inform you that some medicines need to import and need money to buy some other medicines which remain on the island. Furthermore, the medicines and surgical equipment and some chemicals for medical tests are in a shortage.

Ceylon Youth Movement coordinates the needy and people who want to help them with donations. The donator can either pay directly to the pharmaceutical agent or the hospital. Any requirements from the donors' side are considered and we assure that the transparency of the donations will keep.

Even one penny is golden for them at the moment.

Thank You!
